

How to Access the Temple Beth-El Media Wiki Pages and Share Your Memories

A History of Temple Beth-El: A Proud Tradition of Worship, Education and Community

Dear Fellow Congregant:

Everyone should be made aware that the Temple Beth-El Media Wiki pages are a collaborative space. While the page itself cannot be edited, the comments and contributions made by others can. Please do not alter or modify others thoughts and reactions. Our goal is that contributions are made by individuals and then collaboratively edited by those involved (The History Committee) until there are any changes made to the existing Media Wiki page(s).

We would also note that if someone wants to propose a change to the text on the page it is very easy to copy that text into the discussion section and then mark up any changes that the individual would like to propose.

Please follow these instructions:

1. Go to historyproject.templebeth-el.org
2. Click on Login/Create Account in the top right hand corner
3. In the Login box click 'Create and account'
4. Enter your username, password and real name
5. Navigate to any page you would like to comment upon and click on the 'Discussion' link at the top left of that page
6. Enter your comments, reactions, thoughts or contributions
7. Click Save

Thank you for participating in the Temple Beth-El History Media Wiki.

The Temple Beth-El History Committee
